RECOMMENDATION: Repeat cervical screening test in 5 years.

Drs Parastoo Irandoost, Samanthika Weerawardena,
 Farokh Fargah, Shabnam Irandoust, Mudiwa Muronda and
 Indika Liyanage.

Cervical HPV testing and/or cytology remains a screening test with a low but inherent risk of false negative result. If your patient experiences any abnormal symptoms, they are advised to return for appropriate clinical investigation. HPV testing uses COBAS technology which tests for oncogenic HPV subtypes 16, 18, 31, 33, 35, 39, 45, 51, 52, 56, 58, 59, 66 and 68.
